

# M. GOKUL RAJ

Computer Science & Engineering Student | Aspiring Software Engineer | Cloud & DevOps Enthusiast

Tamil Nadu, India • +91 8667807372 • mgokalraj@gmail.com • github.com/mgokulraj • linkedin.com/in/mgokulraj

## PROFESSIONAL SUMMARY

Detail-oriented Computer Science and Engineering undergraduate with foundational expertise in software engineering, cloud architecture, and distributed automation pipelines. Highly proficient in Python, Go, and Java, alongside modern cloud tools including GCP, Terraform, Docker, and Kubernetes. Proven ability to design secure structural code workflows. Eagerly seeking software development or DevOps internships to solve cross-scale backend infrastructure challenges.

## TECHNICAL SKILLS

|                 |                                                                           |
|-----------------|---------------------------------------------------------------------------|
| Languages       | Python, Go, Java, C, C++, JavaScript, SQL                                 |
| Cloud & DevOps  | Google Cloud Platform (GCP), Terraform, GKE, Cloud Run, Cloud IAM, Docker |
| Tools Ecosystem | Git, GitHub, Linux (Bash), VS Code, Scalable Architecture Design          |

## TECHNICAL PROJECTS

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |                       |
